Final-year Computer Science master's student with a dual bachelor's degree in Mathematics and Computer Science. I build APIs and distributed applications using automated tests and Docker. I am seeking a software engineering or DevOps internship, with an interest in automation and deployment.

EDUCATION

Université Sorbonne Paris Nord, France

Master's in Computer Science P2S - Final year

2026 - 2027

Programming, Software Safety and Security; software engineering, program specification and verification.

Master's in Computer Science - First year · Ranked 2/56

2025 - 2026

Dual bachelor's degree in Mathematics and Computer Science

2022 - 2025

TECHNICAL SKILLS

Languages Python, Java, C, C++, Rust, JavaScript, SQL.

Backend REST APIs, Flask, Spring, SQLAlchemy, MySQL.

Environment Docker, Linux, Bash, Git/GitHub, Cargo, CMake.

Quality Unit and automated testing, pytest, debugging, documentation.

Systems Java RMI, sockets, threads, process synchronization and coordination; MPI.

PERSONAL AND ACADEMIC PROJECTS

QChain | Experimental blockchain

Python · Flask · Docker

- Built a REST API and CLI; set up a **three-node Docker testnet** and **146 automated tests**.
- Developed a Proof-of-Work blockchain with transactions, node synchronization and fork selection based on cumulative work.

FootStat API | Web application

Python · JavaScript · MySQL · Docker

- Built a web application in a two-person team to search for football players and explore their statistics by season and competition.
- Implemented a REST API to manage players, clubs and their data.

Distributed Resource Manager

Java · RMI · Sockets

- Designed a two-phase commit prototype (prepare/commit/abort) with a coordinator, participants and locks for each resource.

Rust Matching Engine | Order book

Rust · Cargo

- Implemented order placement and cancellation, partial fills and best bid/ask tracking; verified the matching logic with unit tests.

ADDITIONAL EXPERIENCE

Guest Services Host | Mahola

May - August 2026

Welcomed and directed visitors, working with a team to provide clear, professional assistance.

LANGUAGES AND STRENGTHS

French: Native · **English:** Professional proficiency · **TOEIC 900/990**

Analytical thinking, attention to detail, independence and adaptability.
